JULY 2020

From the DANWA President:

Greetings Friends & Neighbors,

This month's newsletter has not been easy, I've tried to put my thoughts to print several times. I finally realized that, you don't need my opinion on the COVID-19 Pandemic, the economy, the BLM demonstrations, the riots, or any of the other issues currently filling the news channels. I'm sure that if I were to express my thoughts, someone would be extremely upset, exchanges of this nature are better done face to face so all sides can be heard.

June 8th we had our first meeting since March. I was appreciative of those who attended, and was pleased that we were able to take care of some old business. Interestingly the crime stats for the period of the shutdown didn't show any significant changes.

At the August 10th meeting we will be serving ice cream along with the other sweet creations. An added treat, Rep. Andy Fugate will be joining us to present an overview of some the issues that have confronted the state legislature this past session. I've heard Rep Fugate referred to as a very conservative Democrat.

In closing, let me repeat something I heard; "Love and Respect for others, starts with one's self."

May God Bless and keep you and yours. See you at the July 13th meeting.

Friendly reminder regarding curfew.....

From the Del City Police Department
 Friday & Saturday—**curfew is 1am**
 Sunday through Thursday **curfew is midnight**
 So if you see children/teens out AFTER these times on these dates, don't be afraid to call the police.

677-2443

We're still looking for someone to fill the Officer's position of Patrol Captain.

If you might be interested contact any of the officers listed in the upper left portion of this page.

Even though you don't see the blinkie lights on top of a patroller's car, that doesn't mean we aren't patrolling.

Sometimes we go incognito and can still call the police if we see something suspicious.

If you can spare some time, we can use block captains to help deliver the DANWA newsletter. Some blocks only have 20 homes to deliver to, most are less than 25 homes. If you can help with any of these please contact any of the District Captains above. It takes me about 15 minutes to deliver 23.

You don't have to be a member to volunteer to deliver the newsletters.

It has come to my attention that there are American Flags that need to be properly disposed of, not just throw them in the trash but ceremonially and in a dignified fashion of respect. United States Flag Code (4 USC Sec 8 Para (k)

amended 7 July 1976 states: "The Flag, when it is in such condition that it is no longer a fitting emblem of display, should be destroyed in a dignified way, preferably by burning." Don't throw it in the trash or just burn it like you see protestors doing in the street, but destroyed in a dignified way. The easiest way is to donate it to the American Legion, Veterans of Foreign Wars, Boy Scouts, or the Girl Scouts. Another way is to fold it properly, place it in a dignified box and bury it, saying a few words if you wish or even saying the Pledge of Allegiance. Finally, if you prefer, please bring it to the DANWA general meeting and give it to Joe Satterwhite or Rex Warlick and we will make sure they are taken care of properly. Thank you and God Bless America.

Stormwater Pollution Prevention:

Grass Clippings

Do not blow leaves and grass into the storm drains or ditches—Dumping leaves and grass clippings into the stormwater system affects streams. The increase in nutrients associated with grass clippings can cause algae growth, which can kill fish and other aquatic life.

Keep this grass waste out of storm drains. Try the following:

1. RETURN TO LAWN—it is best to leave grass clippings uncollected on the lawn so that they are recycled, contributing to soil organic matter and supplying part of the fertilizer needs of the lawn. Adopt a mowing schedule to keep clippings short enough to filter through growing grass and not remain as a mat on top of the lawn. Research and experience indicate that only 1/3 of the grass length should be removed during mowing. Never allow the lawn grass to double its height between mowing. This approach not only eliminates clipping collection and disposal problems, but also can contribute to improvement of the lawn.

Clippings are not a cause of thatch in lawns. Instead, thatch is formed primarily from a dense accumulation of grass roots and stemmy material. Returning clippings along with the proper mowing frequency will not increase disease problems. Use caution when removing collection bags from mowers. Some machines are not designed to operate safely without a bag or other attachment in place.. Check with your equipment supplier if you are unsure if your mower can operate without a collection bag.

2. GARDEN MULCH—Grass clippings can be used as garden mulch. To reduce any tendency to protect slugs, clippings can be dried in the sun and a day prior to being used in this way. Clippings can be spread on garden soil to check weed growth, reduce soil spattering and crusting, moderate soil temperatures, etc. As a precaution, do not use grass clippings from herbicide-treated lawns until after two grass cuttings have been made.

3. SOIL INCORPORATION—clippings can serve as a source of organic matter for soil improvement when incorporated into the garden.

4. BACKYARD COMPOSTING—grass clippings can be composted, especially when used in a backyard leaf composting pile. However, grass has high nitrogen content, a much higher demand for oxygen than leaves, and a tendency to mat, which reduces the passage of oxygen. Composting piles containing grass clippings can become anaerobic. This, in turn, can produce strong, unpleasant odors. These odors are particularly noticeable when the pile is disturbed. Because of these problems, grass clippings should not be composted alone, but rather mixed with composting leaves. One must be aware, odors, and reduce the rate of decomposition. The objective is to keep the material aerobic. Also, ensure that excess nitrogen is not given off as ammonia, do not add more than 1 part fresh grass clippings to 3 parts partially composted leaves.

The resulting compost can be used as soil amendment, as mulch for gardens, flower and shrub beds, or as a potting medium.

An 80-year-old gentleman, retired to Florida after his wife of 58 years had passed away. He was quite alone in the world and longed for companionship again. One day, as he was walking through a public park, he spied what he considered to be a very pretty, silver-haired lady sitting alone on a park bench. Getting his nerve up, he approached the lady and asked graciously, "Pardon me, ma'am, but may I sit here with you?" The silver-haired Marcie looked up to see a distinguished-looking, white-haired gentleman and replied, "Why certainly," and moved over gently to give him room to sit down. For the next two hours, the two sat and talked about everything. They discovered that they came from the same part of the country, liked the same big band music, voted for the same presidential candidates, had had long, happy marriages, had lost their spouses during the previous year, and in general, agreed about almost everything.

Finally, the old gentleman cleared his throat and asked sheepishly, "Ma'am, may I ask you two questions?" With great interest and anticipation, Marcie replied, "Why certainly!" The old gentleman removed a handkerchief from his coat pocket and spread it out on the ground before her. He very gingerly got down on one knee and looked her softly in the eyes. "Marcie, I know we've only known each other for a couple of hours, but we have so much in common. I feel I have known you all my life. Will you marry me and be my wife?" Marcie grabbed at Jimmie's hands and said, "Why, yes, I will marry you! You have made me so very happy!"

She reached over and kissed him gently on the cheek. Then Marcie said, "You said you had two questions to ask me. What is the second question?"

Jimmie scratched his neck and said, "Will you help me get up??"
